

Why You Need Goals - The Philosophy of Achievement

1. **The purpose of your life is to enjoy it.**
2. **You are not immortal.**
 - a. There is a time limit to this 'game of life.'
3. **You can have ANYTHING you want.**
 - a. You just can't have EVERYTHING you want.
4. **It's not what you 'get' that is the real prize.**
 - a. It's who you BECOME in the process that is the true value.
5. **Don't set the game up so you must 'achieve to be happy.'**
 - a. You want to set the game up so you 'happily achieve.'
6. **Goals let you consciously and deliberately**
 - a. 'Choose your own experience of life ... in advance.'
7. **Choose to live fully, passionately, joyfully in every area of your life.**
 - a. Health, wealth, relationships, personal development.
8. **Choose now. Choose wisely.**

Know someone who could use help setting goals they will actually ACCOMPLISH this year?
